

Hosted in  
partnership with:

# Disaster Recovery Workshop

SBP, in partnership with the Silicon Valley Community Foundation, and CADRE, is hosting a Disaster Recovery Workshop to share best practices and lessons learned with **nonprofits, emergency managers, elected officials, and philanthropy** to support the ongoing recovery process from the 2022-23 Winter Storms and better prepare these partners for future disasters.

**August 10, 2023**

American Red Cross Building  
2731 N. First St., San Jose, CA  
95134

## Who we are:

### SBP

SBP is a national disaster recovery and resilience nonprofit with 15+ years experience in supporting communities recovering after disaster.

## Agenda

Welcome and SBP Overview	8:30-8:45
The Toyota Production System	8:45-9:30
Recovery 101	9:30-10:30
FEMA Assistance & Appeals	10:30-12:30
Catered Lunch	12:30-1:00
Long Term Recovery Group Training	1:00-5:00

To Register for one or more of these sessions, please visit the following link:

# SBP's Recovery Training Menu

SBP offers training sessions for organizations in disaster-impacted communities. These in-person training sessions provide critical information for navigating the recovery process and allow participants to ask questions and share information with each other. Please fill out the registration form below to register for any session(s) you are interested in attending.

---

## Toyota Production System

The Toyota Production System is a tool for effectively managing any process. The goal of Toyota's production system is to take materials through an assembly line and turn them into a high-quality vehicle. SBP follows its detailed client-focused procedures for each rebuilding project, and carefully tracks its rebuilding success to ensure projects are completed on time and within the budget. In this training we provide tools for nonprofits to tackle any underlying operational or structural issues that might be emerging.

---

## Recovery 101

SBP's Recovery Navigation Training details what to expect in the early days following a disaster, tips for approaching the recovery process, and some of the key resources and programs available to support survivors. Topics covered include: How to avoid contractor fraud, muck and gut/mold suppression training and more.

---

## FEMA Assistance and Appeals

Survivors may be denied or under-awarded. Appealing these cases is necessary for a shorter recovery and is also correlated with long-term Housing and Urban Development funds. This training provides a comprehensive overview of the FEMA Individual Assistance Program including duplication of benefits between FEMA, the SBA and insurance companies, types of assistance FEMA provides and qualifications for that assistance, understanding FEMA determination letters, common reasons for ineligibility and how to write successful appeals.

---

## LTRG Training

Long Term Recovery Groups are critical in community recovery. SBP provides a course on organizing and managing an LTRG. The instruction includes an overview of the disaster recovery process, organizing the LTRG, financing the LTRG, common pitfalls of LTRGs, and understanding the anatomy of a disaster.
